*Explanation of Other Funds:**The project will be funded with a 50/50 local match from bond proceeds.***Detailed Project Description and Justification:**

This project will construct a two lane strip paved roadway with storm drains and street lighting. This grant with a 50/50 local match from bond proceeds will fund the project for a 2009 startup.

The often traveled commercial/industrial street has never been constructed to standards. The current street is an unpaved, unlit, unmaintained local road connecting an important collector with a major arterial.

The upgrade will enhance traffic safety and flow along an overly used side street.

Project Timeline:

Project startup will be in 2009.
